

SCHEDULE

8:30 – 9:00		Welcome and Introduction
9:00 – 9:20	Shikharani Sabnis	Transformations in Resource Utilization and Settlement Pattern: An Ethnoarchaeological Approach in the Hilly District of Assam and NE-India
9:20 – 09:40	Jan-Eric Schlicht	Along the spectra: Tracing patterns of transformation among non-sedentary societies through large scale cross-cultural analysis
9:40 – 10:00	Victoria Alliata	Urbanity is urbanity is urbanity...? When different disciplines use the same words
10:00 – 10:20	Giacomo Bilotti	Population dynamics in Northern Germany and Southern Scandinavia during the Neolithic and the Bronze Age. A methodological approach
10:20 – 10:30	Coffee break	
10:30 – 10:50	Robert Hoffmann	Economy and Subsistence in the Central European Neolithic: Artifacts of Food Production
10:50 – 11:10	Nadine Schwarck	Typochronological Studies on the Neolithic in the western Low Mountain Range
11:10 – 11:30	Caitriona Dickie	Social Transformation and Interaction Networks During the 5th Millennium BC in the Carpathian Basin and Central Europe
11:30 – 11:50	Jose Morillo León	Social transformations during the 5th millennium in the Zitava Valley and SW Slovakia
11:50 – 12:00	Stine Hildebrandt (by Berit Eriksen)	Machine learning based reconstruction of palaeolandscapes for improved interpretation of human-environment relationships
12:00 – 14:00	Lunchtime Seminar	
14:00 – 14:20	Lukas Wirth	Euclid's Optics: Critical Edition and Commentary
14:20 – 14:40	Julia Heil	Hellenistic City Foundations - Planning and Appearance in Local and Regional Contexts
14:40 – 15:00	Manuel Zolchow	Seismic full waveform-inversion for archaeological prospection
15:00 – 15:20	Coffee break	
15:20 – 15:40	Gerrit Günther	Of collapse and change: Reconstructing socio-environmental transformation processes using agent-based modelling and system dynamics
15:40 – 16:00	Leander Schmidt	Dynamics of plant economies in ancient societies
16:00 – 16:10	Coffee break	
16:10 – 16:20	Sascha Krüger	A word from the PhDs of the 1st Phase
16:20 – 16:40	Magdalena Haller	The pathogen landscape of the Neolithic and its influence on the human immune gene pool
16:40 – 17:00	Daria Moser	Infectious disease burden in Central European Neolithic human populations - a skeletal and demographic perspective
17:00 – 17:10	Coffee break	
17:10 – 17:30	Steffen Strohm	Network Analysis and (Link-Based) Similarity in Heterogeneous Information Networks
17:30 – 17:50	Oliver Nakoinz	Summary
